

The school of Ancient Wisdom is dedicated to preserving and realizing the ageless wisdom, which embodies both a world-view and a vision of human self-transformation.

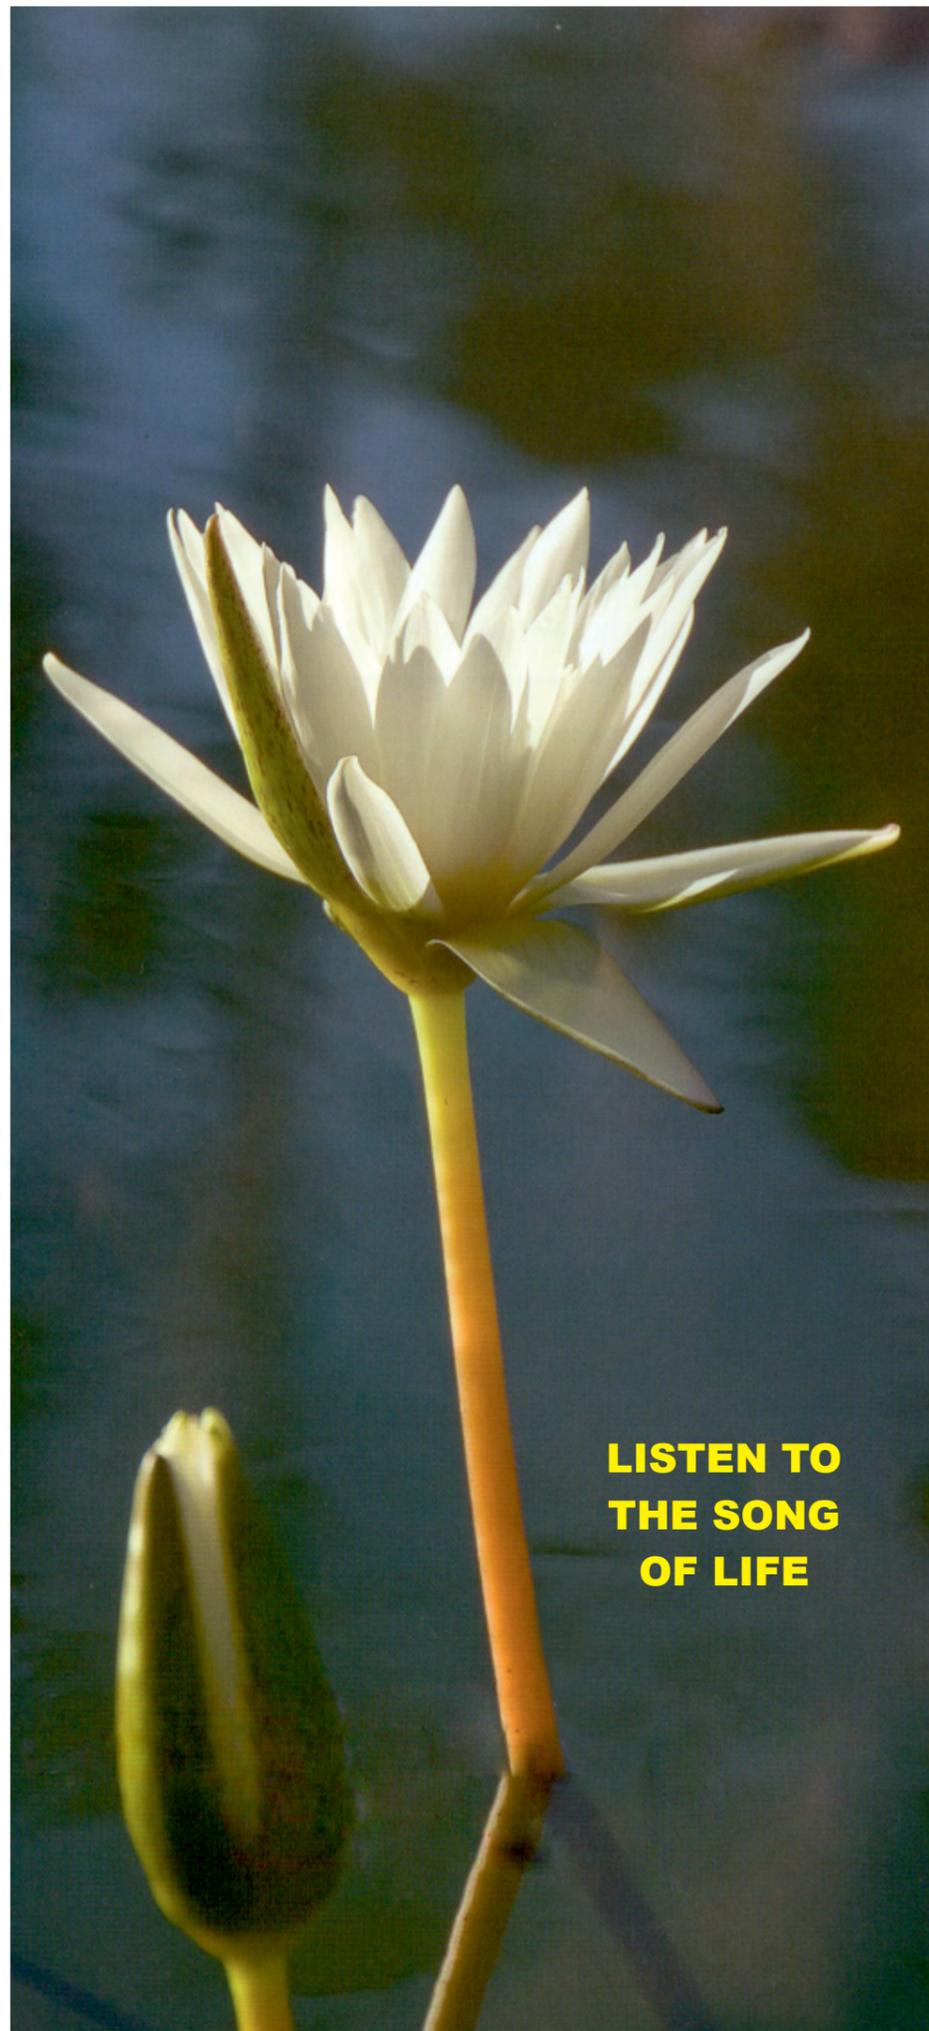

This centre is dedicated to certain fundamental propositions.

- The Universe and all that exists within it are one interrelated and interdependent whole.
- Every existent being—from atom to galaxy—is rooted in the same universal, life creating Reality. This Reality is all pervasive, but it can never be summed up in its parts, since it transcends all its expressions. It reveals itself in the purposeful, ordered, and meaningful processes of nature, as well as in the deepest recesses of the mind and spirit.
- Recognition of the unique value of every living being, expresses itself in reverence for life, compassion for all, sympathy with the need of all individuals to find truth for themselves, and respect for all religious traditions. The ways in which these ideals become realities in individual life are both the privileged choice and the responsible act of every human being.

Central to our concerns is the desire to promote understanding and brotherhood among people of all races, nationalities, philosophies and religions. Therefore, all people, whatever their race, creed or colour are invited to participate equally in the life and work of the School.

It points towards the source of unity beyond all differences. Devotion to truth, love for all living beings, and commitment to a life of active altruism are the marks of the transformed being---the marks of a truly spiritual person.
